

CAMO Marksman Decking Tool

The CAMO Hidden Deck Fastening System works on any treated lumber, hardwood, cedar, composite, or PVC deckboard. CAMO deck screws and a CAMO Marksman tool combine to deliver a fastener-free deck surface at a price that makes getting the job easy and installing the deck even easier.

CAMO Hidden fasteners were independently tested and exceeded Uplift Resistance industry standards in all solid and grooved wood, composite, and PVC boards tested. CAMO Hidden Fasteners also exceeded Thermal Cycling industry standards in all solid wood, composite, and PVC deckboards tested. CAMO offers a Limited Lifetime Warranty that guarantees against rust and corrosion for the life of the project.

MARKSMAN PRO-X1

The CAMO Marksman Pro-X1 is designed to create a beautiful, fastener-free surface for treated wood decks. Because treated lumber contracts as natural drying occurs, the Marksman Pro-X1 delivers the slightest 1/16" automatic spacing. The Marksman Pro-X1 positions CAMO Hidden Fasteners for side angle entry to the deck board rather than the top, so the beauty of the wood is all you see.

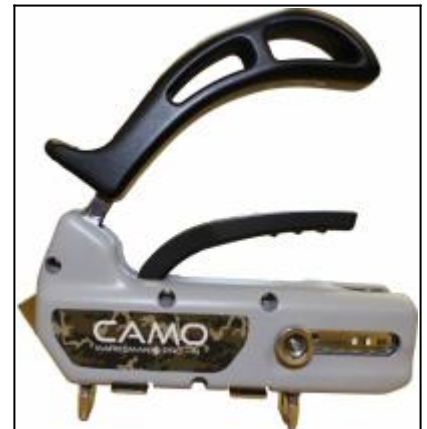

- For use with treated wood and other soft woods due to the shrinkage that occurs in those types of deck boards.
- Fits any 5-1/4" to 5-3/4" deck board.
- Automatic 1/16" spacing
- Dual screw guides fasten both sides of board with single tool placement
- Clamping action grips deck board
- Heavy-duty, contractor-grade tool

MARKSMAN PRO-NB

Narrow deck boards present a classic look for outdoor flooring. The CAMO Marksman Pro-NB is designed to enhance that look by creating a beautiful, fastener-free deck surface. Designed to fit deck boards measuring 3-1/4" - 5", the Marksman Pro-NB delivers 3/16" automatic spacing, and positions CAMO Hidden Fasteners for side angle entry to the deck board rather than the top so the beauty of the board is all you see.

- For use with treated, hardwood, cedar, composite and PVC deck boards. For narrow deck boards measuring 3-1/4" to 5"
- Automatic 3/16" spacing
- Dual screw guides fasten both sides of board with single tool placement
- Clamping action grips deck board
- Heavy-duty, contractor-grade tool
